

## Press release

# Golbey to start containerboard production in April

Norske Skog Golbey will commence production of recycled containerboard in April and start delivery of its first customer volumes. Finalising the pre-commissioning at the containerboard machine is the main outstanding item before the project is completed and production can start. There is no change in the budget for the project.

*“We are pleased to announce that we are nearing completion of the world-class containerboard machine at Golbey, which will be a significant milestone for Norske Skog and for everyone working at the Golbey mill. Although the final work has taken slightly longer than expected, we look forward to start deliveries of containerboard to our customers shortly,”* says Geir Drangslund, CEO of Norske Skog.

### About Norske Skog

Norske Skog is a leading producer of publication paper and packaging with four high quality industrial sites, strong market positions, and close customer relations in Europe. Norske Skog aims to further diversify its operations and continue its transformation into growing and high margin markets through a range of promising development projects. The Group has approximately 2 100 employees, is headquartered in Norway, and listed on the Oslo Stock Exchange under the ticker NSKOG.
